Far More Than Just a Bed

Optimal Locations

Karibu's selection of our properties is not by accident, but have been selected to deliver easy access to the local game viewing opportunities, but also an address that in itself is highly experiential. No two locations are the same, all delivering different aspects so sought after in an African safari.

Designer-led Interiors

During the development of our camps and lodges, we at Karibu have taken exceptional care to craft a space for our guests that evokes the feeling of safari with that of comfort and style. With contributions by local artisans and designers, our camps and lodges are as individual as they are African.

Culinary Excellence

Each of Karibu's properties is home to an Executive Chef and a team of cooks that cater for the international palate but with the delicate nuance of African flavourings and seasoning. Breakfast, lunch and dinner is an opportunity to test our skills and we accept that challenge daily for our discerning guests.
